

Test Data – Anti-Bacterial Assessment

Staphylococcus aureus, E-Coli, MRSA, Aspergillus niger –
Shield fabrics

Client: Clarkson Textiles Ltd
Lameshaye Industrial Estate
Lindred Road
Nelson
Lancashire
BB9 5RS

Job Ref: 06E0374
Sample Ref No.: LSN 28/34985
Date Received: 04/05/2006
Date Reported: 02/06/2006

CERTIFICATE OF ANALYSIS

PANAZ QUALITY SHIELD FABRIC

Meth. Desc

Modified ASTM 2149-01

Test	Result	Unit	Est
Staphylococcus aureus	99.9	%	Reduction After 24 Hours
Escherichia coli 0157	99.9	%	Reduction After 24 Hours
Staphylococcus aureus (Resistant Strain)	99.9	%	Reduction After 24 Hours
Aspergillus niger	99.9	%	Reduction After 24 Hours

Comment: The microbiological results demonstrate that the material under test exhibits biocidal activity against the above listed microbial strains.
